

# Keg Carts

are part of our  
SA Line of Hand Trucks

WyseCarts makes aluminum material handling products for the Foodservice Distribution industry.

On our website you'll find photos and details of our delivery ramps, load bars and curb ramps.

We also do custom aluminum work and stock replacement wheels for all brands of hand trucks.

## WYSE INDUSTRIAL CARTS

**LIGHTER  
LOWER COST  
CARTS ARE  
AVAILABLE NOW**

WyseCarts now offers a Tread Brake option and a lower base cost on carts without brakes. Our SA line of Carts are lighter weight and lower cost.

# WYSECARTS DEVELOPS SECOND LINE OF HAND TRUCKS

Fall of 2014 we started production of a second line of aluminum hand trucks, featuring both a tread brake option and a lower priced, lighter weight, no brake design.

Our second line of two-wheel, 600 lb. capacity hand carts uses most of the same replacement parts as our original line of WyseCarts.

Both our cart lines use the same handle style options, the same rugged aluminum frames, extensions and nose plates.

Both cart lines have the same tire options available. Choose from either our closed cell foam tire, black pneumatic or gray pneumatic tires.

If your work environment doesn't demand our heavy duty patented drum or disc brakes, take a look at this lighter, lower cost SA line. Both lines of WyseCarts are built in Wauseon, OH and developed for the Foodservice Distribution industry.

\* Shipping is extra and price does not include options like the Closed Cell Foam Wyse Tire or Frame Extensions.

**Starting at**  
**\$234<sup>05</sup>\***  
**Air Tires**  
**No Brake**

Here's our model 3000 style handle, in our SA line of hand trucks.

**Tread Brakes**  
are now part of our  
**Lower Cost Line of Carts**

**\$360<sup>00</sup>\***  
**Tread Brake**

This is our tread brake, matched with a model 4000 style handle on our SA line of hand trucks.
